About Me

I am a senior student majoring in Computer Science who is well-prepared and eager to secure employment within the field. My academic background and practical skills have equipped me with the necessary knowledge and expertise to excel in a professional setting within the realm of Information Technology.

Education

Alexandru Ioan Cuza, Bachelor of Computer Science

2022, Iasi, Romania

During my time at the university, I engaged in a rigorous academic curriculum that encompassed a wide array of impactful subjects such as advanced programming, Python, and web technologies. Through these courses, I acquired valuable knowledge and skills that enabled me to successfully complete numerous projects and further enhance my understanding of these important areas of study.

Colegiul Național „Eudoxiu Hurmuzachi”, Computer-Science and Math

2018, Radauti

During my time in high school, I actively engaged in the Olympiad of Computer Science, a prestigious academic competition.

Work Experience

Intern Front End Engineer, Beenear - Iasi

July 2022 - Present

I have experience in creating web applications by utilizing the React framework. My proficiency in developing web solutions with React enables me to deliver high-quality and efficient applications that meet the needs and requirements of clients.

Projects

E-commerce website - https://github.com/ioan_popescu/e-commerce_website

Developed a comprehensive web application incorporating both front-end and back-end components, showcasing proficiency in a wide range of technologies and programming languages.

Technologies: React, Node.js, MongoDB

Hotel website - https://github.com/ioan_popescu/hotel_website

I have successfully designed and implemented a sophisticated website for a hotel, catering to the needs and preferences of potential guests. Through meticulous planning and creative execution, the website offers a seamless user experience, showcasing the unique features and amenities of the hotel to attract and engage visitors.

Technologies: React, Node.js, MongoDB

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS, Python, Java

Frameworks: React, Node.js, Flask

Developer Tools: VSCode, Git, MongoDB

Soft Skills

Teamwork, Communication, Problem-solving
